EARTH DAY

"Every 8 seconds a new American is born. He is a disarming little thing, but he begins to scream loudly in a voice that can be heard for seventy years. He is screaming for 56,000,000 gallons of water, 21,000 gallons of gasoline, 10,150 pounds of meat, 28,000 pounds of milk and cream, 9,000 pounds of wheat, and great storehouses of all other foods, drinks and tobaccos. These are his lifetime demands of his country and its economy... he is heralded as a prodigious consumer in a nation that accounts for one-fifteenth of the earth's people but consumes half of its total product."

Rienow and Rienow
Moment in the Sun

This week's *Seminarian* is coming out a day ahead of schedule in order that it may play a part in the Earth Day activities. Earth Day is the last day in a week long remembrance of the plight of the earth in terms of pollution of the air, water, and land. Ecologists tell us that unless something is done now, human life may have only thirty-five years remaining to exist on this planet. In the brief space allowed here the topic can not be fairly dealt with, but notice sometime the grime on your car, and remember that it all isn't road dust.

The problem of pollution is indeed an important one and one that must be dealt with now. Therefore, the *Seminarian* calls upon everyone to participate in Earth Day in the following manner:

1. Refrain from smoking all day.
2. Refrain from driving your car. If possible use Trolleys, walk, or ride a bike.
3. Pick up litter around campus and the streets.
4. Participate in the Earth Day activities at Belmont Plateau at twelve Noon (City Line Avenue to Belmont Avenue to the Plateau).
5. As a form of protest against pollution wear a face mask.
6. Do not let Earth Day just become a one day affair. Protest all the year

by demanding that goods be sold with a minimum of packaging. Reuse as much as possible paper bags, boxes, plastic bags, and other containers. Don't use DDT, Heptachlor, Acorin, Endrin, Dieldrin, Lindane, Benzene Hexachloride (B.H.C.), Toxaphane or Chlordane. Stop buying throw away, non-returnable bottles. Demand stores to stock returnable bottles. Stop buying detergents and enzymes with high phosphate levels. Use Cold Water All, Trend, Wisk, or Diaper Pure and avoid detergents and additives such as Axion, Bio-Ad, Biz, Salvo, Oxidol, (cont on p.3)

NEW POLICY

As the editor of the Seminarian, I herewith propose my operational policy for the forthcoming year.

1) My primary effort will be to make the Seminarian into a vital organ of the seminary community. The method for attaining this goal is as is set forth below.

- a) The Seminarian will be a sounding board for controversial subjects, offering students an informal forum for expressing their views. As editor, however, I will not allow any personal attacks or unnecessary profanity. Nor will I allow the Seminarian to be used as a means to unnecessarily develop a controversy from a trivial matter.
- b) Regular reports of progress will be solicited from the president of the student body, the faculty, the Student Life Committee, and the Academic Policies Committee and other committees or groups dealing with items of interest to the student body in order to keep you, the student up to date with the facts. Secrecy or other excuses will not be condoned.
- c) Other articles will be gladly accepted if they seem to have value as information, as literature(poems, etc.), as good entertainment or humor within good taste, as sport news, and other miscellaneous articles here and there.
- d) One or two regular columns may be established at the discretion of the editorial staff.
- e) The Seminarian will attempt to refrain from being nothing but nonsense, but neither will it be a printed bulletin board.
- f) For any of this to be put into practice, the support of the future executive board, the student body and the faculty are needed.

2) The Seminarian then, will be a paper of the students for their benefit--with the help of the students. I will not hesitate to discontinue the paper if the response of the students is not favorable. The Seminarian can be a vital organ of the community(if used as suggested in #1) or it can be worthless. For it to be a vital organ your help and cooperation is not only desired but required.

3) This statement of policy will be reprinted in the first issue in September.

John R. Koons

ELECTION RESULTS

There were a total of 91 votes cast, of which 90 were valid. For president 88 votes were cast, with no candidate receiving a majority. Therefore there will be a run off election between the two candidates receiving the highest number of votes: Robert Holum and William Rosevear.

For the office of treasurer there were a total of 86 votes cast with the majority going to James Hulihan.

The referendum received a total of 90 votes with none of the suggestions receiving a majority. Therefore there will be a run off election between the two suggestions for the donation of the Communion offering's receiving the highest number of votes.

Ballots will be distributed in the mail boxes of each of the students. You are to choose one from each category; President: Robert Holum and William Rosevear. Referendum: Martin Luther King Foundation and Support a child in a foreign country. Majority is needed to win. Vote your choice but VOTE!

Two expressions of appreciation:

1. Hank Deiner, member of the Northwest Community Ambulance Corps, for the couch which has added to the decor of the TV Room.
2. Sue Glandorf, wife of Charlie, and nurse in the emergency room at Chestnut Hill Hospital for the "donation" of the face masks for use on Earth Day.

Earth Day continued.

Tide, and Bold.

All of us have neglected to think about the environment when choosing our shopping goods. We are all guilty. But isn't it time we consider what our greed and wasteful use of resources is doing to the environment? Be Irate. Demand of others. Demand of yourself!

ANOTHER REMINDER FROM LEE BERRY----

ALL THOSE INTERESTED IN A GOLF TOURNAMENT ARE ASKED TO PLEASE SIGN THE "SIGN UP SHEET" SO THAT LEE CAN COMPLETE ARRANGEMENTS FOR THE TOURNAMENT.

CULTURE CORNER

PHILADELPHIA ORCHESTRA TICKETS

Information is now available about the 1970-1971 series of concerts by the Philadelphia Orchestra. In fact, it is now possible to order subscriptions to all ten concert series. Detailed information is available in the main room on the bulletin board, but, in general, the costs for subscriptions ranges from \$9.00 to \$172.00 a series depending on the number of concerts in the series and the type of seat desired. For example, through a subscription a person can attend five Monday evening concerts in Amphitheater seats at an average price of \$1.80 a concert. Any Junior who enjoys classical music and who expects to be back next year would do well to consider subscribing to a series.

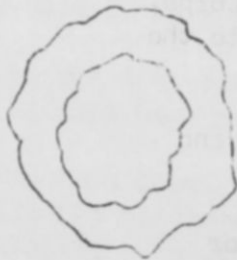

THAT'S A NO-NO

Everything taken from the Canteen must be paid for. You do not pay for Continental breakfast which is only for those boarding students who have not attended the regular breakfast, and then only during the listed hours.

Mrs. Heinbach

THE SEMINARIAN is a student publication of the Lutheran Seminary at Philadelphia. The office is located in "F" Hall, 3rd floor, facing the recreation area. We welcome any articles, newsworthy items, criticisms, cartoons, etc. The staff is still varying but those who help are sincere (even the newcomers). The staff for this week are (is):

Editor: John Koons
Assistants: Skip Erickson, Steve Jensen, and Barry Lace.
Art Work: Ray Ursin.
Articles: John Koons, Barry Lace, Larry Smoose, Lee Berry, R. Bornemann, Mama Heinbach, Carl Shankweiler.
